

PestPacGPS Add-on Instructions

Thank you for your recent purchase of additional PestPacGPS tracking devices. The following information will provide the steps necessary to update, view and report vehicles/technicians in PestPac.

Reminder: THE UNITS ARE SHIPPED ACTIVE. IT IS VERY IMPORTANT THAT THE UNITS ARE INSTALLED IN A TIMELY MANNER.

Prior to installing devices it is recommended that the devices be assigned ahead of time to technicians. Each box contains a VTU card which you will need in order to pre-assign and use when setting up additional vehicles in PestPac. Mark the Technician's name on each card to reference when setting up the devices in PestPac.

Select GPS Units from the Lookup Tables (Diagram A). You'll note the devices currently set up for your company and the technicians assigned and also the newest devices added which you will need to activate (see Diagram B). Click on [Activate] to update the required information to function seamlessly in PestPac.

Diagram A

Diagram B

The screenshot shows the 'Maintain GPS Units' window. It features a table with columns for 'GPS Unit', 'Description', 'Tech', and 'Legacy'. The 'Activate' button for the first row is circled in red.

GPS Unit	Description	Tech	Legacy
VEHICLE 8	2010 Ford Ranger	BMAZARI	43225
VEHICLE 9	2012 Ford Transit	BMAZARI	43214
77	Vehicle 77		432024314
83	Vehicle 83		432024317
BHH	Ben Hesselton	BHH	[Activate]
CPH	Chris Piga	CPH	[Activate]
JMS	John Serravalle	JMS	[Activate]
JDM	James Merrill	JDM	[Activate]
KRL	Karl Lammi	KRL	[Activate]
RSP	Robert Prior	RSP	[Activate]
SMA	Sean Anderson	SMA	[Activate]
SPR	Steve Rice	SPR	[Activate]
SVB	Steve Steasatt	SVB	[Activate]
TMG	Tom Gibbons	TMG	[Activate]

Diagram C

The screenshot shows the 'Maintain GPS Units' form. The 'Save' and 'Update' buttons are circled in red. The form contains the following fields:

- Code: VEHICLE 9
- Description: 2012 Ford Transit
- Technician: BMAZARI
- Legacy ID: 43214
- Active:

The Code & Description areas can be used to identify vehicle # or other information (see Diagram C). Assign the Technician for that particular device (Legacy #). Once completed, be sure to save your updates.

Once Activated and a Technician assigned, access Employees in the Lookup Tables to update each technician assigned a GPS device and assign a VRM Color to the tech (if not already assigned for VRM functionality). The color selected will be used on the GPS Vehicle Map for the Vehicle Icon color and the Service Order Icon colors (See Diagrams D & E).

Diagram D

The screenshot shows a web form titled "Basic Information" for a technician. The form includes fields for Username (BMAZARI), Password, First Name (Basilia), Middle Name, Last Name (Mazanegos), Email (basilia.mazanegos@pestpacdemo.com), and other details like Login Expiration, Adjust Time, Work Day Calendar, and Default Inventory Warehouse. The "Employee Types" section has checkboxes for "User" and "Technician/Salesperson", both of which are checked. The "Show on In/Out Boards" and "Show on Add Screens" options are also checked. The "VRM Color (Google maps)" field is circled in red, and a color selection palette is visible next to it. The palette shows a grid of colors, with the selected color being a light green.

Diagram E

Once these steps have been completed, the Technician will receive his Service Orders on a daily basis (if using the Garmin dispatching function) and the Service Orders and Technician's vehicles will appear on the GPS Vehicle Map, color coded, alongside your existing vehicles previously set up by PestPac.
