

Single Day Optimization

To use Single Day optimization, complete the following steps:

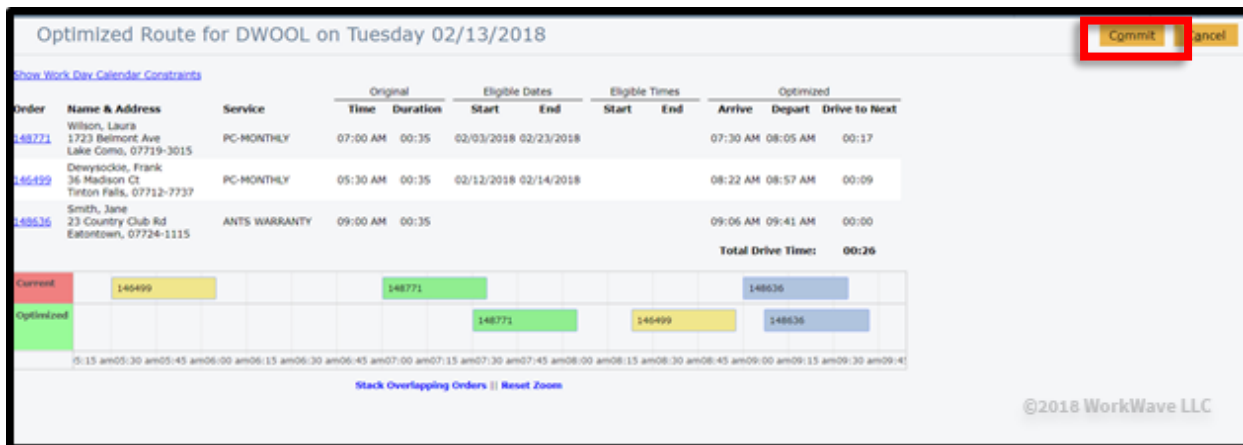

1. From the Appointment Scheduler screen, click the tech and the date for which you want to optimize a single day. Click *See Optimized* in the bottom-right corner of the screen.

The screenshot displays the Appointment Scheduler interface. The top section shows a calendar grid with days from Tue 02/13 to Mon 02/19. The time slots range from 05:00 AM to 12:00 PM. A red box highlights the date 'Tue 02/13' and the technician 'Dewysocde, Fr Tinton Falls'. The summary panel on the right shows the following details:

Unscheduled	Tech Only	Date Only	Tech & Date
Technician:	DWOOL (Doris Wool)		
Work Date:	02/13/18		
Appointments:	3		Map Route
Total Value:	\$185.00		See Optimized
Production Value:	\$185.00		
Start Time:	05:30 AM		
End Time:	09:35 AM		
Duration:	01:45

2. On the next screen, you can review the changes, including any errors or unreachable service orders, before committing.

Your single-day has now been optimized!

REMEMBER: For additional setup, training, and usage resources for RouteOp and other topics for FREE, including live webinars and a robust video library, please visit [PestPac University](#).
